

Eat So They Can 2007 Funds Distribution

Thank you to all of the ESTC hosts and participants for your contribution and support. We hope to see you again for Eat So They Can 2009!

Cheryl's Children's Home

With \$500 US, we were able to feed over 235 children at Cheryl's. This money bought:

1. 2 Bags of sugar
2. 100kg of rice
3. 180kg of porridge flour
4. 6 bags of Ugali flour
5. 2 bags of Green grams (lentils)

Money was also allocated to Cheryl's to help with re-building the dorms and kitchen. Future ESTC funds will also be allocated towards this so the children can sleep safely at night.

Mama Tunza (Kibera)

Mama Tunza's orphanage and school is situated in Kibera, the second largest slum in the world. We were able to allocate them funds for food for over 500 children.

With \$500 US we bought:

1. 140kg of Maize
2. 100kg of Beans
3. 4 Boxes of cooking fat
4. 100kg of Rice
5. 2 Bags of sugar

Eat So They Can funds will also be used to invest in the future, by paying for Mama Tunza, the woman who cares for these children, to receive an education.

Siloam (Kibera)

Siloam, an orphanage and school like Mama Tunza's is also located in Kibera and has over 300 children attending the school. Many also sleep in the dorms at night. The children in the picture are helping to carry food bought with funds from Eat So They Can 2007.

Again, \$500 US went a long way:

1. 140kg of Maize

2. 100kg of Beans
3. 4 Boxes of cooking fat
4. 100kg of Rice
5. 2 Bags of sugar

Money from last years' fundraiser also contributed towards the cost of medical care for one of the children at Siloam.

St. Mary's

St. Mary's in Nyeri has over 700 boys attending their school, many whom also live at the school. With \$750 US we were able to buy some food supplies for them including:

1. 5 Bags of sugar
2. 250kg of Rice
3. 100 packets of tea leaves

As well as food, money from Eat So They Can was used to provide St. Mary's school with:

1. 15 school desks
2. A donation to fix the roof in the boys dorm
3. A donation to fix the food storage unit

The picture was taken in the boys dorm where the roof needs to be fixed. This money will ensure that the boys who sleep at the school can sleep safely at night. Fixing the food storage unit will mean the children are no longer constantly breathing in dust and food is not becoming affected with mould due to moisture.

Ngando Prep School

We are also interested in fixing the fence at this school, at the moment, the children often arrive at school to find their classrooms occupied by the local wildlife.

El Shaddai

El Shaddai is one of the poorest and neediest orphanages that Eat So They Can helps. As a GVN volunteer said after the food and bed drop, "They just needed food and hope."
